Ambercor and COVID19 UPDATE

Ambercor Shipping

Flash News

Together, we are facing a very exceptional situation. The global COVID19 pandemic is affecting all of our families, our businesses, our communities, and our way of life. During this time, we wanted to reach out to all our customers and partners to update you on how we're approaching the situation at Ambercor Shipping.

First and most important, our hearts go out to anyone who's been impacted by the virus around the globe. Our thoughts go out to especially those who are sick, to whom we extend our deepest wishes for a full recovery. And we're truly inspired by the selfless workers in all affected fields around the world who are on the front line working diligently to care for everyone.

Second, Ambercor Shipping is focused on the health and safety of our employees, families and all partners.

Ambercor was founded as a paperless company from the very beginning and we are proud to be leading in this field. Therefore I am pleased to announce that starting March 16th all our employees are working from home. This is to ensure all our employees remain safe and healthy as well as to follow the guidelines provided by Canada Health to help reduce the spread of the virus and keep our communities safe. This shift has been very smooth, and we continue to deliver the highest levels of performance, availability, and security.

Lastly, even as we deal with this unprecedented spread of the COVID19 virus, our team at Ambercor Shipping remains fully focused on your daily business requirements and the challenges that lay ahead of us. Ambercor Shipping was established to handle moments like this.

As we go forward, we'll be sure to keep you updated, and know that we always value your questions, ideas and feedback.
